This Update: 1st November 2022

Source data for all tables, charts and graphs: Nova and DFE Statistical First Releases

Please note, the DfE advises caution over the use of 2022 data, as the pandemic will have had an uneven impact on different schools and pupils. 2022 data should not be compared directly with 2019 and should not be used to make comparisons between schools. The data is best used as a starting point for discussion, to explore how Covid has affected pupil performance.
