## Year 5 -Art

In their art lesson, the Year 5 children were learning about colour theory and how they can make different tints, tones and shades to various primary colours. They were exploring for themselves how to achieve the many variations that they may use in the future..

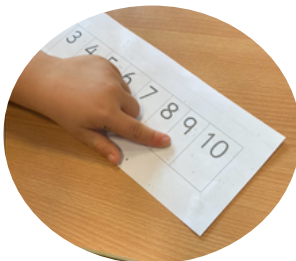

## Nursery

In Nursery this week, they have been taking full advantage of the water play in their garden. They have been exploring all the different activities available to them, learning how to work with others sharing resources and forming friendships along the way.

## Year 1 - Maths

Our Year 1 children have used concrete manipulatives and number tracks to explore one more and one less of a number. They have been to better understand the differences between numbers.

## Photo permissions

We really enjoy celebrating your child's learning and achievements with our wider school community. In order to do this, we must ensure we have your consent. Please check your child's arbor account on the new app to ensure you have given both photo and social media consent. You must do this if you would like to see your child in the newsletter and on the school social media sites. Any questions please let the office know.
