**WELL DONE
YEAR 6
SATS
ARE OVER!**

The Year 6 team would like to pass on their many congratulations to the children in Year 6 this week for completing their SATs assessments. Although it can be a stressful time for many of our children, they have coped with this week tremendously well, showing all of the PRIDE learning behaviours to complete the assessments to the best of their ability. As a Year 6 team, we are incredibly proud of their efforts and couldn't be happier with how the week has gone.

YEAR 2

The children in Year 2 have been learning about animal survival in their Science lessons and took their learning outside to explore different minibeasts and their habitats. The children searched under logs, in hedgerows and amongst leaves to find the animals in their natural habitats. Some animals were very challenging to spot as they blended in with their surroundings! Children discussed the importance of the habitats providing the essentials needed for each animal to survive - water, food, air, and shelter.

RECEPTION

To finish their minibeast themed learning, they are making their favourite minibeasts out of clay. They began by drawing a design, then rolled, shaped, and moulded the clay to create their chosen creature. Can you guess which minibeast they've made? Next week, they will paint them.
